

Cielo Modular Lite

Powerful, versatile and compact.

Fast transaction processing and a high specification are both features of this highly compact PoS, designed to increase staff productivity and efficiency in your work environment

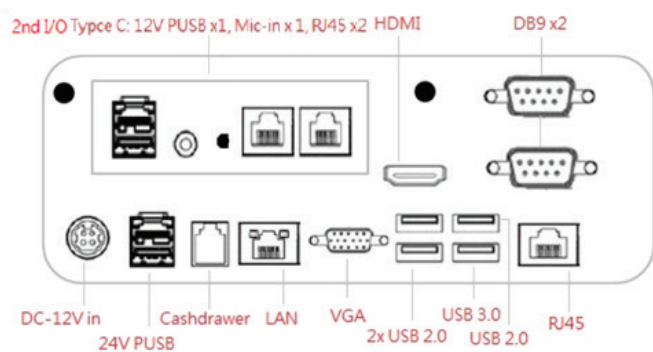

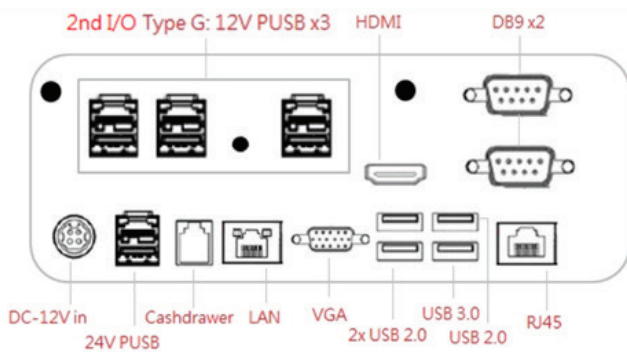

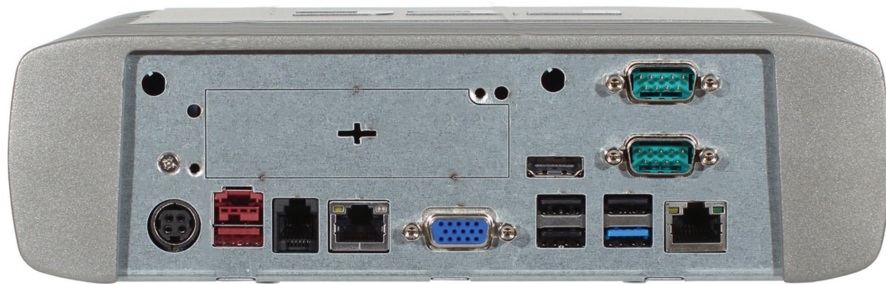

The Cielo Modular Lite PoS is a small footprint unit with high-performance, to ensure that although the solution is space saving, it's efficiency is not sacrificed. Cielo Modular Lite PoS comes equipped with an Intel BayTrail D Celeron Quad-core J1900 CPU processor and offers a wide range of communications ports.

Available in two models, the Cielo Modular Lite PoS, and the Cielo Modular, the high performance point-of-sale range is designed with flexibility and space in mind.
