

Box Technologies is a specialist in customer engagement solutions.

We provide our customers with solutions of design, development, production, installation, deployment and maintenance provision of software and hardware to meet requirements.

Implementation of the Quality Policy is the responsibility of every member of staff, starting with the Board of Directors who review objectives and make policy decisions based on regular management review and to promote continual improvement.

The company philosophy is one of customer service, exceeding customer expectations and offering a high level of technical expertise in each of its product lines.

The company seeks to continually improve all aspects of its business by agreeing a total quality environment with its supplier partnerships, and in managed compliance to the requirements of the international standard ISO9001.

Management Commitment to Quality

- We will ensure customer needs and expectations are determined and fulfilled, with the aim of achieving total customer satisfaction.
- We will communicate the importance of meeting customer needs and all relevant statutory and regulatory requirements throughout the organisation.
- We will ensure Management Reviews are carried out to review the quality objectives and report on the Internal Audit results, as a means of monitoring and measuring the processes and the effectiveness of the QMS.
- We will ensure the availability of resources.
