

Discover. Design. Create. Deliver.

Box Mobile Tablet

Product Overview

The Box Mobile Tablet is a light, rugged tablet featuring high-resolution 8.3" or 10.1" screens, designed to connect retail staff and customers to deliver an enhanced in-store service.

Store managers and sales associates are able to check stock, recommend alternative products, add accessories, and take payment, all on one integrated device, at any location in a store. This means a shopping experience with personalised pricing and offers, with no queuing to make payment when a purchase decision has been made.

Businesses that improve the customer's engagement process can expect to see increased basket sizes and customer satisfaction, as well as reduced queue times especially during busy or seasonal periods.

Features

Ruggedised to withstand a 1m drop

IP65 rated to prevent water and dust ingress

Support for Windows and Android OS

Built-in wifi as standard with 3G/LTE options

Accessories available:

- Rugged case to resist 1.8m drop
- Docking stations (standard and Box Move)
- Hand and shoulder straps
- SmartBack options - including MSR and Payment functionality
