Box device's installed

New hardware and application delivery

An interactive touch screen experience throughout the kitchen

Legacy Micros integration

Find out what we can deliver for you, call us **01844 264000**

“ As a new supply partner to Pizza Hut, Box Technologies quickly established themselves as reliable, capable and value for money; rolling out the hardware for a new kitchen management and delivery system to 350 UK stores, at pace. As part of the group that manufactures the hardware, we could not find anyone to match price and warranty.

Mark Whyley, IT Manager
