# Box POS135

## Product Overview

Designed to operate in conjunction with modular systems or as a standalone secondary display, the POS135 monitor utilises the latest touch panel technology to provide a highly responsive, space-saving solution.

The POS135 combines a bright, bezel-free 15" LED display with tried and tested PCAP touch panel technology to deliver a sleek user experience at the point of service. The touch monitor also features an array of I/O ports for additional connectivity requirements, and a range of peripheral options to further enhance functionality.

The form factor and weight of the POS135 also comfortably lends itself to flexible mounting options, utilising the VESA 100 x 100 fitting that comes as standard on the rear of the unit.

## Features

- Bright, 15" LED PCAP touch panel
- Slim, compact form factor
- Additional connectivity available through I/O interface
- Range of integrated peripheral options
- Flexible mounting options
